Old-Time Dance —

San Francisco toughs who broke up a Brisbane firemen's dance Saturday night created a riot in which fire hoses, fists, and clubs were used in a free-for-all battle which lasted for more than an hour, it was disclosed today.

One man was injured, another collapsed from a heart attack, women were mauled, and two San Francisco "invaders" were jailed.

Ice Skating Champ —

In sub-zero weather, against an icy wind and handicapped by snow that fell occasionally, George Wallace, Burlingame's national champion ice skater, won the 500 meter event over the week-end at Riga, capital of Latvia, setting a new Latvian record.

In his triumph, his first victory of a north European tour on which he is representing the San Francisco Olympic Club, Wallace led a field of record holders.

Stanford Scuffle —

A tempest has been stirred up by refusal of the Stanford students' executive committee to authorize a benefit program for Finnish civilians on the grounds that such official sponsorship would be "unneutral."

Although university officials were irked, the students' executive committee action was defended by Larry Livingston of San Francisco, editor of the Stanford Daily, in an editorial praising the decision as "morally courageous," and "the most effective stand for peace made on the Stanford campus since the European war began."

Scout Program Today

Woodrow Wilson elementary school held an outdoor program at 9 a. m. this morning to celebrate the thirtieth anniversary of the Boy Scout movement in the United States.

The school assembled in front of the building while the scouts conducted the program. Richard Russell was master of ceremonies and gave a short talk on Scout Week. Bob Lederman sounded the bugle for the raising of the flag and the school salute. Earl Lutzker gave a short talk on scouting activities in Daly City. Henry Herting, Ramon Gamba and Paul Underhill presented an original radio skit entitled "A Scout Hike." The use of the new microphone recently purchased by the school made the radio skit an actual radio presentation.

Cubs Warren Herting, Frank Devlin, Robert Thompson and Glen Wilkes presented "Scouting Songs" to the group. The program closed with the singing of America, led by Miss Mabel Vireno.

The program was planned and directed by Miss Marjorie Tobias, principal, and Mrs. Rose Corral, art supervisor.

Realizing the important part that scouting plays in the development of character and citizenship, school officials encourage this movement whenever possible. R. L. Crane, district superintendent of schools, is an ardent scout enthusiast. Miss Tobias, Mrs. Corral and Mrs. Marion Hewner are scout counselors and qualified to give ten merit badge tests.

Terrier Smells Smoke

The frantic barking of a little fox terrier, late Wednesday evening, led to the discovery of a fire that swept through the interior of the Williams Construction company's building, 16 Mission circle, causing damage estimated at \$3000.

Only quick action on the part of the Daly City Fire department prevented the blaze from spreading to the next building. A short-circuit in a truck was believed to have been the origin of the blaze.

"Patsy," 14-year-old brown and white fox terrier, belonging to Mr. and Mrs. P. Dormoy, 40 Mission circle, next to the burning building, started in on a series of persistent barks at 10:30 p. m. and would not be quieted until her master got out of bed and investigated the cause of her alarm.

He saw the building next door ablaze inside, with the outside wall, a foot from his house, smoking from the internal heat and ready to burst into flame.

After phoning the fire department and hastily donning his clothes, Dormoy found his next door neighbor, Frank Pope, who had also heard the barking, already on the Dormoy roof with a

Lincoln Trophy Goes To Jefferson

Verna Moresco, pupil in Mrs. Leonitti's high seventh grade at Jefferson grammar school, wrote the prize winning essay which brought the Arthur J. Bodien Lincoln trophy to Jefferson school for the fifth time in the last eight years.

The trophy is an annual award to the school in the Jefferson district turning in the best Lincoln essay each February.

The plaque was presented at 2 p. m. Monday by Arthur J. Bodien, civic leader. He was assisted by R. L. Crane, district superintendent of schools. Judges of the essays were Mrs. Ray Lagomarsino, president of the Colma PTA; Mrs. Mildred Seiler, president of Crocker PTA, and Mrs. Fanny Kantor of the Woodrow Wilson PTA.

"I am proud of Jefferson grammar school," said Bodien in presenting the plaque, "for winning this award five times in eight years and am particularly pleased with the winning essay."

Said Crane of Verna's essay, "It is not only exceptionally well written, but actually gives an insight into Lincoln's character."

"Because of our 1940 program being more diversified, we expect a much larger participant record this year," stated Hull.

Formerly recreation director of the Daly City unit, Hull is well remembered here. During his term of office, he made a wide circle of friends both for himself and his department, and contributed largely to the development of recreation in this community.

Indians of Rhythm Celebrate Anniversary

Last week saw the first anniversary of Jefferson's famed Indians of Rhythm.

It was just a year ago on February 9, 1939, that Dante P. Lembi, dynamic young language instructor, and five swing-minded students organized the Indians.

A month later, with an increased personnel, the Indians skyrocketed to fame after an appearance at the Half Moon Bay high school and theatre and at the Daly City theatre. Today the band and specialty entertainers number approximately 80 students. They have played for major events all over the Bay area.

Friday, their anniversary, saw the Indians giving a program at a school assembly and one at the Goodfellows club, Bayshore City.

130 Men Report For Duty

Prosperity turned the corner of Bismark and Mission streets, Friday morning, when 130 WPA workers gathered there to receive work slips and be detailed to their various jobs in Daly City's quarter million dollar South End streets project. Seventy of the workers were Daly City and Colma residents.

The job was officially begun when a load of lumber, kegs of nails and rolls of tar paper were dumped on the vacant corner lot for the building of toolsheds and work offices.

Handling the government end of the project will be W. Arnold, WPA superintendent. Representing City Engineer Julius F. Castelan in the field will be F. Hardwick, former Daly City contractor.

Sewer laterals, curbs and sidewalks will be laid first on Bismark, Peter and Paul streets. Curbs will be of a new type, curved to eliminate the danger of cutting tires when parking.

It is expected that the job will last for a full year. The proposed work includes complete improvement of the streets in the Southern end of the community. Paving of the streets will be emulsified asphalt, similar to that used in the Lake Merced district, Garden Village and on Templeton avenue.

Bert Lasswell Honored By Skipper

An invitation to sail with Glen Waterhouse, world's champion starboat skipper, in the mid-winter regatta at Los Angeles harbor, has been accepted by Bert Lasswell, local sailing enthusiast.

Three men are required to handle the skittish starboat, which is the smallest type of racing boat made. Lasswell plans to spend four days at the southern event.

The Los Angeles mid-winter regatta is one of the largest events of the winter boating season and attracts entries from far and wide. Lasswell plans to leave for Los Angeles next week if business permits.

TIMOSSI OUTLINES EXEMPTIONS

Here are a few suggestions for motorists which will help relieve that headache around March 15, deadline date for Federal income tax returns. According to A. L. Timossi, Mission Auto company, Chrysler-Plymouth dealer here, motorists may make substantially the same deductions on the operation of their automobiles under both Federal and state income tax laws.

The following deductible items were given by Timossi:

Registration fees, license fees, personal property and municipal taxes.

Financing charges, not including insurance, also interest on money borrowed to purchase the automobile.

Insurance on automobiles used for business purposes.

Operating and service maintenance, depreciation on a car used entirely for business purposes, or a share of such expenses where the car is used for both pleasure and business.

Losses through damage to the automobile where no insurance was received.

Cost of damage to either property or persons when the automobile was being used for business purposes.

When a car is used for business and sold for less than its depreciated value, the difference may be deducted. This does not include instances where the car is traded in on a new car at a lower price than its depreciated value. However, such depreciation can be deducted on the following year.

Items which can not be deducted include Federal and state gasoline taxes. Federal taxes on accessories, on lubricating oil, tubes, tires, etc. Federal taxes on new cars.

INTELLIGENT SERVICE

The entire nation this week pauses to honor the accomplishments of the Boy Scouts of America. This organization, young in years (only thirty), has displayed unusual intelligence in its service program.

Statistics alone point to its importance as a national and local movement: in San Francisco, which includes Daly City and Brisbane, 6,000 boys and 2,000 leaders are active in scouting at the present; in the past 23 years 50,000 boys in this area have experienced scouting; in the nation at large more than nine million youths have had scout training in the past 30 years; over 1,300,000 are now active in the United States.

The prime purposes of the organization are character development and citizenship training. However, scouting is progressive in its educational approaches and utilizes the natural energies and inclination of boys. The boy in scouting learns by doing and being, rather than by reciting lengthy rules of behavior which have no practical bearing on his everyday activities. He learns the habit of good citizenship by daily practice; he lives the scouting ideal of respect for others and respect for law and order.

Surveys have shown, time and again, that boys will gravitate to a gang. The scouting movement is the first to see that bucking this natural tendency is foolish. They comply with it, realizing that much more may be accomplished by changing the nature of the gang rather than trying to stamp out the boys' urge to "belong to a gang." The boy tends to do what the gang asks—hence it is obvious that if the gang requests the boy to do the right things in the right way more good will be accomplished than in any other way.

Scouting combines the enthusiasm of the boy with the experience of the man. It makes good citizenship a pleasure and not a bore; it asks the best of a boy in language which he can understand.

It was also agreed that Chief Andrew P. Chesney continue to show moving pictures of fire-fighting and prevention as an educational feature for the firemen.

At the Fire Commissioners meeting, Tuesday, Chief Chesney reported on the routine inspections made by himself and Chief Marshal Fields with his deputy marshals; monthly reports from each company were read.

A proposed weed ordinance was discussed and the methods used by Peninsula cities in curbing this hazard will be studied.

A minute and some seconds after the alarm was turned in, the Daly City Fire department, Companies Nos. 1, 2, 3 and 4, arrived and took over. Four lines were laid, three delivery trucks removed from the burning building and the fire quickly brought under control.

"It was a pleasure," said Dormoy, "to watch those boys work; no lost motion; their clock-work precision in laying hose; every man doing his job, and no one getting in the other fellow's way."

"In a few minutes the danger that threatened the whole neighborhood, was swiftly brought under control," continued Dormoy, "Mrs. Dormoy and I are very grateful that our house was saved."

Six Weeks Song

When the carnival comes to Nice on the French Riviera, there is a charming custom of launching a new song whose melody is played daily by every orchestra and street band until everyone is whistling or humming it. When King Carnival dies, the song dies too, and the following season another takes its place.

Twentieth Installment

History of Fire Dept.

(Editor's Note: This is the twentieth installment of an informal history of the Daly City Fire department, dedicated to "those who serve—not for personal gain—but for the welfare of all.")

Through the cooperation of William J. C. Goldkuhl, E. W. Goldkuhl sr., and Edward W. Goldkuhl jr., authors, and the Daly City Record this interesting story is made available to the general public.)

To compare Daly City with the major cities on either side of it as to cost for fire protection, insurance rates and fire loss in this year of 1939, we submit the following figures:

(The cost for fire protection to San Francisco, 1939, \$3,200,000.)

(The cost of fire loss in San Francisco—unavailable at present.)

San Mateo Fire Department Budget \$38,000 (Insurance rate three times that of San Francisco.)

Burlingame Fire Department Budget \$27,000. (Insurance rate double that of San Francisco.)

Daly City Fire Department Budget \$8,000. (Insurance rate same as that of San Francisco.)

The fire loss in Daly City during 1938 was \$6835. Thus, through thirty-one years of constant building, improving of equipment and perfecting of fire fighting methods, the Daly City Volunteer Fire Department is able at a mere fraction of the cost which the major cities on either side of Daly City pay, to offer to the citizens a Fire Department which in the eyes of the Fire Underwriters ranks on a par with a city the size and wealth of San Francisco.

Protection given from the heart has truly paid and is paying in dollars and cents to our city.

May we salute, Firemen, our opinion is that you have done and

are doing a one-hundred per cent job.

This year of Our Lord, 1939, brings the history of the Daly City Fire Department up to its present stage of progress. As we, the

Fire Chief Andrew P. Chesney

recorders, go back over the events that have transpired in the thirty-one years of the past, we find naught but evidence of those who served for the general welfare of all. We find men whose Sundays, holidays, nights, money, all—were given freely to what they loved best—their Fire Department.

Should there be a fire department in the place where men go when they leave this earth, we are sure that many members of the Daly City Volunteer Fire Department will be entered upon its rolls.

It's the Early Bird that gets the Fun

The model illustrated is the BUICK SUPER model 51 four-door touring sedan \$1109 delivered at Flint, Mich. White sidewall tires additional.*

ONE of these days the itch is going to hit you to get out and get in on the fun a Buick can be in the spring-time.

You're going to feel an irrepressible yen to touch off that husky, sweet-singing Dynaflex power plant and swing out in gentle coil-spring comfort to take in the fresh spring landscape.

Maybe, like others we know of, you've even got the model picked out, and are just "waiting a few weeks" to do something definite about it.

But may we emphasize, in purely friendly interest, that a lot of other people probably have the same idea.

And that when they start buying in droves—as they do every year about the ides of March—even Buick's big factory has trouble keeping up with them.

Help Promote Safety—Dim Your Lights When Passing

Of course, we're doing all we can to be ready for everyone.

But you can get only so many cars in a warehouse.

And a full warehouse can empty awfully fast.

And what with everybody wanting Buicks this season, we can't say how long we can promise the delivery we can give now.

So why not play the early bird this year? Why not get the jump on your neighbor and be driving your Buick while he's still talking about getting his?

You've nothing to lose, a lot of fun to gain—and you'll find the address of your Buick dealer in the phone book.

"Best buy's Buick!"

Roy Driggers Addresses Eagles At Banquet Here

"If the Fraternal Order of Eagles in California keeps up its present progress, by June 1 it will have 58,000 members and assets of two million dollars." So stated Roy Driggers, state president of the organization, at the Worthy Past Presidents' banquet, Thursday night.

Addressing more than 200 members of Colma-Vista Grande Aerie No. 1848, Driggers congratulated the aerie on its fine co-operation in initiating the type of men who build a better community through friendship and service.

Driggers recalled an experience with the fabulous "Death Valley Scotty," who had everything that money could buy. Envy Scotty, Driggers took his family to visit the desert mansion. During the visit, Scotty confided to the Eagle president's children that their father should be the happiest man in the world, with three fine children and many friends.

"Money will not buy friendship nor happiness," Driggers said. "And our organization is rich in both."

Mayor Paul G. Selmi welcomed Driggers on behalf of the city.

Twenty-year pins were presented to Ed Heim and William Bolger by Fred Klinger, worthy past president, who acted as master of ceremonies.

Past presidents conducted the initiatory ceremonies for the ten new incoming candidates.

Committees were headed by Worthy President Bert Meritt.

The turkey banquet was in charge of William Wright, worthy past president.

Jeff Year Book Wins Wide Acclaim

Miss Marjorie Robinson, instructor of the mimeographing department of Jefferson Union high school, recently received the following letter from the head of the department of commerce in Santa Rosa junior college:

"Dear Miss Robinson:

"Mr. Radell, of the Tempograph Sales company, showed me a copy of your January 1940 year book with an Indian head on the cover. I am very much surprised with the quality of work presented in that year book.

"I would be very much interested in knowing how you are able to get your high school students to do such a really outstanding piece of work. Do the commercial students themselves design and complete all the art work, or do you have an art department which does the art work for you? How many semesters do you have your students before they are able to do this?

"I would appreciate very much a copy of this year book, if you have any extra ones on hand.

"Very truly yours,
A. J. Roemer,
Head, Department of
Commerce,
Santa Rosa Junior Col-
lege."

Miss Robinson and school officials expressed their appreciation at receiving such a letter from a higher school of education.

The work was all done by students, Miss Robinson explained, none of whom had more than one year of mimeographing and most of whom had entered just this fall. The students also have made very original and good looking Christmas cards, she said, and a few are making cards for Easter. This is all done in their regular mimeographing class.

Mimeographing is also taught by Miss Robinson at night school and many night school students made their own Christmas cards. School is held on Tuesdays and Thursdays from 7 to 9 p. m., at the Jefferson Union high school.

In addition to mimeographing, Miss Robinson teaches machine calculation on the Burroughs, Sunstrand, Comptometer and Monroe machines and bookkeeping for beginners or advanced students. There is no charge for instruction.

Swiss babies born in 1936 were 20,000 fewer than those in 1900, and between those dates the number of births a 1,000 potential mothers slumped from 266 to 131. Should the decline continue, Switzerland's death rate in 1945 will exceed its birth rate.

Soldavini Reports Many Used Cars

It is an axiom in the automobile business that when new cars are in heavy demand, used cars are more plentiful, and in general, lower-priced, than at any time.

The country is entering such a period right now, in the opinion of M. J. Soldavini of the Belli Motor company, Chevrolet dealers, who cited the sharp increase in new car sales, since introduction of the 1940 line, as indication that bargains in used cars would be plentiful this spring.

"The moment the new models made their public bow, we had more orders on the books than could be delivered for weeks, and it is only recently that the plants have begun to catch up on the back-order situation," said Soldavini.

"As new models are turned over to owners, we are constantly replenishing our stock of used cars.

Polite Crime

There's nothing like an apology to soothe an injury—except possibly this one. Rubin Harvey was accosted by a stranger on a Little Rock, Ark., street who slashed him several times with a knife. Suddenly the assailant stepped back in apologetic surprise, remarked, "Excuse me, I thought you were someone else."

After the unprecedented attendance at their jitterbug contests, which lasted over a period of two months, Night Owls expect their subsequent dances to be important highlights in the activities of the younger set in Daly City, Colma and South San Francisco.

Club officials extended a personal invitation to all dance devotees to have fun with the Night Owls, Saturday night. A Leap Year dance is planned for the near future, they added.

GRETA GARBO PLAYS COMMISSAR IN SOPHISTICATED ROMANTIC COMEDY

Garbo sings, Garbo dances, and Garbo laughs in her first picture in two years and her first venture into sophisticated modern romantic comedy. The picture is "Ninotchka," in which the Swedish star comes tomorrow to the Daly City theater.

Teamed with Melvyn Douglas, who also played opposite her in "As You Desire Me," Garbo was directed by Ernst Lubitsch. Many whimsical "Lubitsch touches" enliven the story.

Garbo plays a stern Soviet commissar sent to Paris by the Russian government to sell a noblewoman's confiscated jewels. The noblewoman and a French count fight the deal in court. Garbo and the count fall in love. The noblewoman maneuvers to get Garbo back to Russia but the count maneuvers to have her sent to Constantinople where they are married.

Companion feature on the new bill stars Kay Kyser and Adolphe Menjou in "That's Right—You're Wrong."

Peanut Prosperity

Thousands of pigs are now rooting for a living in the peanut fields of the South, declares the Country Home magazine. Farmers around Headland, Ala., grow one acre each of grass, oats and soybean pasture, and 5 acres of peanuts for every sow and her two yearly litters of pigs. The only additional requirement is 10 bushels of corn and 150 pounds of mineral supplement to finish fattening the porkers. Disease is avoided by having no permanent hog houses and no permanent shade. Temporary shelters are provided in hot weather, and temporary windbreaks when it is cold.

Cottonmouth Moccasin

The cottonmouth moccasin is a dangerously poisonous snake generally of dark chestnut-brown with some darker barring and with yellowish-white stripes on the head and throat. The common name of this snake refers to the white lining of the mouth, which it is said to display before biting. Cottonmouths may attain a length of four feet. They are not aggressive and most cases of snake bite in which they are involved are due to the reptiles being stepped on.

Skeeter Cheater

After four years of experimenting, five scientists at Rutgers university, New Brunswick, N. J., have developed an insect repellent which they claim will protect the most susceptible skin from mosquito bites, says the Country Home magazine. One of the scientists tested the new product in a marsh, smearing half of his body with the product and leaving the other half untreated. He was bitten more than 5,000 times on the untreated skin, while insects carefully avoided the treated portion.
